Description

Used divided back postcard of Garrett and Company, makers of famous Virginia Dare Wine. The business which was located at the foot of Chestnut Street in Berkley began making the wine in 1904. In 1916, Virginia went dry and the company floundered. The building seen to the right was the residence of Paul Garrett, President of the Company. The house later became a hospital. This view was postmarked at Norfolk June 14, 1912.
